EVENTS CALENDAR

TARGETS FOR 2019

Growth is one of the targets that Pordenone Fiere wants to achieve in 2019 through the levers of development and internationalization.

Two assets that translate into the relaunch of specialized “B2B” corporate events, high-quality shows for the public with outstanding exhibitors and selected side events, a wide range of market exhibitions related to passions and hobbies, the opening of international markets and especially through a series of collaborations with structures, institutions and associations at local, national and foreign level.

The 2019 calendar was born on these bases. With 36 events scheduled, Pordenone Fiere qualifies as one of the most active medium-sized trade fairs amongst those operating in Italy.

An important commitment that can only be carried out thanks to skilled internal resources with specialized know-how and to efficient organizational procedures, high level collaborations with external structures and consultants in the sectors and territories of reference, modular use of the exhibition centre.
